

HDA

it starts with a vision.

retail & commercial.

WHO WE ARE

“It starts with a vision” is more than a motto; at HDA, it’s the philosophy we live by.

In 1986, Jack Holleran, President of HDA, envisioned an architecture, interiors and master-planning firm providing creative and timeless design with exceptional customer service. Since then we have designed over 150 million square feet nationwide, totaling more than \$3.5 billion in construction costs and completed over 250 projects in more than 44 states.

RETAIL & COMMERCIAL APPROACH

HDA has designed some of the region’s most cutting edge and recognizable structures. A carefully detailed and timeless design can directly affect a company’s position in the marketplace, and its ability to attract and retain the best employees. We understand that the shopping experience starts at street level, and pulling shoppers into your establishment will involve design elements that include lighting, color, accessibility and flexibility. To achieve these results, we work closely with our clients to determine the optimal design solution.
